

Uma Maheswari Pralaya Kaveri

Software Developer

Sri Kalahasti, Andhra Pradesh | +91-6302507824 | umamaheswari1318@gmail.com | [LINKEDIN](#) | [GITHUB](#)

PROFILE SUMMARY

Computer Science graduate passionate about building practical, user-focused software. Experienced in Python, JavaScript, and modern web development, with hands-on work in AI chatbots, REST APIs, and full-stack applications. A detail-oriented collaborator eager to contribute to impactful real-world projects and grow as a software developer.

EDUCATION

- **B.Tech** : Computer science & engineering | SV Colleges (JNTUA) | Tirupati | CGPA : 7.1. [2025]
- **Inter** : (M.P.C) | Sri Chaitanya | Tirupati | CGPA : 7.3. [2021]
- **SSC** : Sri Chaitanya | Srikalahasti | CGPA : 9.8. [2019]

SKILLS

- **Programming Languages** : Python, Java (Basics).
- **Web Technologies**: HTML, CSS, JavaScript, React (Basics).
- **Database** : MySQL.
- **Tools** : GitHub, VS Code, Jupyter Notebook, Eclipse.
- **Concepts** : OOPs, REST APIs, Generative AI.

INTERNSHIP

- **AI Intern**[Techobytes,E-Cell] [LINK](#) May-June 2024
 - Gained hands-on experience in voice cloning (RVC), object detection (YOLO), and generative AI chatbots. Skilled in crafting AI solutions for real-world applications
 - Collaborated with a team to integrate AI models into production systems, improving scalability and performance by 20 percent.
- **Application Developer** [Rooman Technologies] [LINK](#) Feb-May 2025
 - Contributed to web and mobile app development using modern frontend and backend frameworks.
 - Implemented UI and API integrations to enhance application functionality and performance.
 - Assisted in debugging, feature rollout, and optimization across cross-platform environments.

PROJECTS

- **Gen AI Chatbot LLMs:** [LINK](#)
 - Developed a chatbot with text and image input using **Python, HTML, CSS, and JavaScript**.
 - Leveraged **Large Language Models** (LLMs) to automate customer support, reducing response time by 70 percent.
- **Weather Analysis Application:** [LINK](#)
 - Developed a weather analysis web application using **React.js** to display temperature, humidity, and weather conditions for different cities.
 - Integrated REST APIs to fetch live data using JavaScript and Vite.
- **Habit-Aware finance:** [LINK](#)
 - Built a full-stack finance tracking web app that helps users log spending habits, analyze financial behavior. Tech: **Python, Flask (backend), SQLite/JSON (data persistence), HTML/CSS templates**.

POSITIONS OF RESPONSIBILITY

- **College magazine editor** [2023]
 - Collaborated with a team of writers and designers to produce the annual college magazine.
 - Edited articles to ensure high editorial standards and meet deadlines.

CERTIFICATION

- **Cloud Computing** [LINK](#) 20 April 2025
